Subject: Fact sheets for upcoming ADD meeting

These one pagers are for Wren's use during the ADD meeting. Wren will want to know how the national issues impact Region 6 and what the status is in Region 6. We should use this as an opportunity for Wren to advocate for issues that we want addressed so we should give her talking points and facts to help guide these conversations. Please have them to me by COB next week wed. (4/11). Use the we care format.

Jennifer/Dayana – Regional Haze. Need a one pager that covers current status for 1st planning period and any issues we have heard from our states in preparing for the second planning period. Jennifer please take the lead and work with Dayana to pull this together.

Alan – SSM issues. Background on both SIP call and the TX petition issues. Please include a talking point for Wren about what % of our backlog is tied up in SSM issues (now and when the remaining SIPs become backlog in May).

Erik – Fact sheet on 2015 Ozone transport submission. Please provide brief background and high points of Texas's approach and our comments.

Ruben – St. Bernard and Texas areas.

Michael Feldman, PhD
